Profile

Passionate B.Tech – AI & Data Science student (3rd year, CGPA: 8.51/10) seeking internship opportunities to apply academic knowledge to real-world challenges, strengthen technical abilities, and collaborate with diverse teams.

Education

B.Tech in Artificial Intelligence and Data Science — **Chennai**
St. Joseph's College of Engineering | CGPA: 8.51 / 10 — *2024 – 2028*

Skills

Languages: Java, Python, C, JavaScript
Frontend: HTML5, CSS3, JavaScript, React.js (Basics), SQL
Tools: Git, GitHub, VS Code

Projects

AI-Based Bus Assistance System for Persons with Disabilities

- Built an accessible full-stack application using React, TypeScript, FastAPI and SQLite, with voice-guided pickup requests, route-based test-driver matching and acknowledgement updates.
- Integrated RF-DETR Small with OCR to read bus route numbers and YOLO11s to detect mobility aids in uploaded images, with consent-based assistance requests and text-to-speech readout.

HaloHex PATH – AI

- Developed an AI-powered personalized learning platform that generates career roadmaps based on users' goals and identifies skill gaps through assessments.
- Implemented features for AI-assisted learning, adaptive roadmap updates, progress tracking, achievements, leaderboards, and community engagement.

Infosys Program Tracker

- Developed a centralized platform to track and manage student and faculty participation in Infosys Springboard programs.
- Designed features to organize participant information and simplify program tracking and management.

Waffle Shop Webpage

- Designed and developed a responsive waffle shop website using HTML, CSS, and JavaScript.
- Implemented interactive web elements and responsive layouts to provide a smooth user experience across different screen sizes.

Internships & Trainings

Full Stack Web Development Intern — **Novus Solutions**

- Completed a 20-day hybrid internship focused on Full Stack Web Development, gaining practical exposure to web development concepts and technologies.

Full Stack Web Development Intern — **BIG-SI-BUCKS**

- Completed a 1-month internship focused on Full Stack Web Development, gaining practical exposure to frontend and backend development concepts.

Machine Learning Intern — **Reccsar Private Limited**

- Completed a 1-month hybrid internship focused on Machine Learning, gaining practical exposure to machine learning concepts and workflows.

Certifications

- Frontend Web Developer Certification
- Fundamentals of Java Programming — Infosys Springboard
- Frontend Web Development: Modern HTML, CSS & JavaScript — Udemy
- Meta Front-End Developer Certificate — Meta / Coursera

Hackathons & Events

- Participated in a National-Level Technical Symposium at Saveetha Engineering College.
- Selected for the Smart India Hackathon (SIH) Internal Edition 2026.
